

THE DAY WE CELEBRATE

A Good Turnout at the Columbian Committee Meeting

AND MANY NAMES ARE ADDED

To the General Committee, Being Delegates Sent From Various Societies and Organizations—The Invitation Committee Reports a Design—The Committee on Decoration and Display Organizes and Adjourns to Meet at the Public Buildings This Evening—Miscellaneous Business Transacted.

The general committee having in charge the preparations for the celebration of Columbian day met in the first branch council chamber last night. The members were somewhat tardy in coming together, but by the time Mayor Seabright rapped for order there was a goodly number present. President Hullahen Quarrier, of the Chamber of Commerce, was present and was invited to a seat on the chairman's platform by the mayor. While great interest was manifested by those present last night, the number of absentees was not a very encouraging feature.

The matter is now in a situation where hard and earnest work must be done if the celebration is to be brought to a successful climax. The responses from the various lodges and organizations in the city indicates that Wheeling will see the largest parade on October 21 that it has witnessed in many years.

REPORT PROGRESS.
All of the committees reported progress. The committee on invitation reported that they had agreed on a historical design for an invitation submitted by the Bullard printing company. They recommended that 500 be ordered at a cost of \$75.

On motion of Mr. M. B. Bailey the report was referred to the committees on finance and printing with the committee on invitation. The motion was amended so that any other design might be considered by the committee. Mr. Muegge had a hard time in getting the mayor to put a motion he made, to the effect that the chairman of each of the standing committees be added to the executive committee. Mr. Muegge knew what he was driving at, but the mayor was obstinate in thinking otherwise. After some effort on the part of the friends of the mayor light finally dawned on him and he put the motion, which was adopted. It might be said at this point that the mayor is entirely too conversational when in the chair. Insisting all the time that he wants to rush business through he is really the only one who retards it.

ADDITIONAL DELEGATES.
The following lodges and organizations reported delegates to represent them on the general committee:

Ft. Henry Lodge, Shield of Honor—C. W. Dreihorst.
Knights of Pythias, Germania Lodge, No. 7—John Neuhardt.

On motion of Mr. Bailey all societies intending to parade were requested to report to the chief marshal as soon as that officer shall have been chosen. The meeting then adjourned to convene at the call of the executive committee.

DECORATION AND DISPLAY.

The Committee Meets and Organizes, and Adjourns to Meet To-night.

Next to the finance committee the committee charged with the decorations and display is the most important, but as yet there has been a meager attendance of the members of that committee. This committee met after the adjournment of the general meeting last night and organized by electing D. H. Bayha, chairman, and Henry Ben, secretary. Owing to the small number in attendance it was thought best to adjourn to 7:30 o'clock this evening at the same place, first branch council chamber.

The list of the committee is republished below, so that no member can make the excuse, "I didn't know I was on that committee." Messrs. Milton Mabis, C. W. Franzheim, H. H. Dunlevy, A. J. Schultze, W. H. Shafer, Jacob W. Grubb, Harry McLure, Charles VanKeuren, Thomas B. McLain, C. R. Tracy, M. J. Hearne, Edmund Bocking, Alex. T. Young, C. R. Goetze, R. H. COUNTRYMAN ROBBED.

A Cameron Jay with More Money than Brains Falls Among Thieves.

A Jay from Cameron blew into town yesterday with a \$50 bill that burned his pocket, and he proceeded to smash it in the most approved style. He fired up on liquor and then visited several improper houses, winding up in Assulta's saloon, on Market street, above Tenth. There he claimed he had been robbed and the police were telephoned for.

Lieut. Terrill took the man to the Hope house, where he searched him and found \$27. It is not likely that he was robbed of any money, but his watch was gone, and it is more than likely that he was "pinched" in Assulta's saloon. The stranger gave no name and no arrests were made.

This saloon, by the way, is becoming quite notorious; or rather it is keeping up its notoriety. The Council committee on police turned his license down, but Council in its "wisdom" reversed the committee's action.

The Moundsville Mining & Manufacturing Company will hold its second lot sale October 5.

Local Bicycle Notes.

Jason Stump, of this city, was the only Wheeling cyclist that succeeded in capturing a prize in the big bicycling tournament held in Wellsville on Thursday, winning third prize in the 3:20 mile race in competition with some of the crack riders of Ohio and Pittsburgh. Not one wheelman from the latter place won a prize. Only two of the Wheeling cyclists participated in the event.

To-morrow a number of the Wheeling cyclists will take a run out to Claysville, Pa. They will start from the corner of Sixteenth and Market streets at 8 a. m. sharp, and they extend a cordial invitation to all wheelmen to join them.

Sleep on Left Side.

Many persons are unable to sleep on their left side. The cause has long been a puzzle to physicians. Metropolitan papers speak with great interest of Dr. Franklin Miles, the eminent Indiana specialist in nervous and heart diseases, who has proven that this habit arises from a diseased heart. He has examined and kept on record thousands of cases. His New Heart Cure, a wonderful remedy, is sold at Logan Drug Co. Thousands testify to its value as a cure for Heart Diseases. Mrs. Chas. Benoy, Loveland, Colo., says its effects on her were marvelous. Elegant Book on Heart Disease free.

Too Much of a Risk.

It is not unusual for colds contracted in the fall to hang on all winter. In such cases catarrh or chronic bronchitis are almost sure to result. A fifty-cent bottle of Chamberlain's Cough Remedy will cure any cold. Can you afford to risk so much for so small an amount? This remedy is intended especially for bad colds and croup and can always be depended upon.

STILL THEY COME IN.

Interesting Appeals from the Acts of the Reassessors.

SCORE MORE OF THEM YESTERDAY.

Some Peculiar Petitions in the Lot. The Postal Telegraph Company asks a Reduction on Personal Property from \$1,000 to \$50. The Committee Still Hard at Work.

The sub-committee of the Council committee on equalization and appeals put in the time yesterday finishing up the work in the First and Second wards. No reports have yet been made, in pursuance of the committee's idea that to announce its action encourages other kickers. The idea has gone out, however, that unless there is grave wrong done by the assessors the figures will be let alone, and if they are viewed of too low they will be raised. In consideration of two or three Eighth ward petitions were withdrawn yesterday. About twenty new appeals, scattered among nearly all the wards, were filed with City Clerk Thoner. These were as follows:

Mary B. Metcalf, Fifteenth street, raised from \$5,250 to \$5,400; too much.

C. H. Fisher, assessed at \$2,500; \$2,200 fair.

Joseph Grantzer, raised from \$1,500 to \$1,900; unjust.

Hannah Fisher, assessed \$8,850, partly on "a pass of lot No. 7 in a water hole."

A fair assessment would be \$7,525.

August W. Serig, raised from \$2,100 to \$2,800; \$2,500 would be high.

Natural Gas Company of West Virginia, raised from \$250 to \$450 on a lot on the island; too high; on a South Side lot from \$500 to \$1,350; too much.

Henry Hackman, Sixth ward, raised from \$200 to \$625; \$300 enough.

J. H. Rosenberg, 2323 Chapline street, assessed at \$2,200, which is \$200 too much.

Dr. D. H. Taylor, one lot raised from \$50 to \$200; has only been offered \$75.

Another raised from \$300 to \$600; \$500 fair.

On a third \$650 to \$1,200; \$800 enough.

Another lot was put up from \$1,900 to \$2,300; has been offered for sale at less than the last valuation.

Property at the corner of Market and Twentieth streets raised from \$4,550 to \$11,450; \$9,000 enough.

Caroline Zimmer, 1114 and 1116 Market street, \$8,000 in 1891, \$12,800 in '92, an increase of 60 per cent.

"The Peabody Insurance Company purchased 100 feet further down street, and only paid \$250 front foot, including improvements just as good as mine. You assess me at the rate of \$200 front foot and \$4,000 for improvements, making \$12,800, while at \$250 front foot it would only figure \$11,000 (44 feet). The east side of Main street below Eleventh is only rated at \$250 front foot. The west side of Market street below Twelfth is only rated at \$300, and worth from \$450 to \$600. Why must I pay on the full value of my property while others only pay on an assessment of only two-thirds?"

John Weitzel, 425 Coal street, \$1,250; \$850 the actual cost and full value.

William Graham, assessed at \$7,500 last year, and \$10,300 now; cost \$6,900, and rents for \$540 a year. Another lot assessed last year at \$2,600 and this year at \$3,700; too much.

Mrs. Harry Seybold, 3526 Jacob street, last year \$3,800, this year \$5,800; \$1,000 increase would be enough.

Abraham Baron, raised from \$3,600 to \$5,800; excessive and unjust.

Mrs. J. L. Hibbs, Eighth ward, raised from \$5,000 to \$6,100; last year's was high enough.

Mrs. Rachel Fisher, raised from \$3,200 to \$4,000, and from \$500 to \$1,500; no reason for the increase.

J. C. Devine, raised from \$1,600 to \$2,600; \$2,000 enough.

Postal Telegraph Cable Company, by George Brand, manager, assessed at \$1,000 on personal property; this is arbitrary, as the assessors never called on him; a proper valuation would be \$50, which would cover all the company's personal property.

The original ten days' limit of the committee's time expired yesterday. They have fifteen days yet in which to complete their work, and it looks as if it would consume every day of that time to do it right.

MOUNDSVILLE.

Marshall County, West Virginia, has been noted as a pleasant place of residences for many years, and if we can judge by the many persons (many of them from the surrounding counties) who have recently removed to Moundsville and have purchased or built permanent homes, it has lost none of its old prestige, and to-day stands as the sixth city in point of population in the state, with a strong probability of being the fifth if the increase in the coming year is proportionate to that of the past.

TO THE MANUFACTURER—She offers great inducements. Cheap Coal. The great Pittsburgh vein underlies the entire region and can be furnished at 90¢ f. o. b. for run of mine. Cheap transportation. Her facilities for distributing are unsurpassed. The trunk lines—Baltimore & Ohio, Ohio River railroad (Pennsylvania system) East, West, North and South, and the Ohio river with her steamers, also the U. S. and Adams Express Companies, thus with rail and river assuring low rates and prompt facilities in shipping. Cheap and healthful living. Being the county seat of Marshall, situated in a beautiful valley, with its rich farm lands surrounding, the product of which finds a ready market in the rapidly growing town, and having a delightful climate, with churches, schools, etc. Two new school buildings being necessary for the increased population, one being on the lands of the Moundsville Mining & Manufacturing Company, with paved streets, lighted by electricity, makes it one of the best places in the State for residence, thus the manufacturer has here cheap coal, bricks, stone, timber, and more especially the facilities for distributing their products (as the rates of freight are the same as from Wheeling and Pittsburgh) with the liberal terms offered by the Company to Manufacturers are unequalled by any city in the country.

TO THE MECHANIC.—It offers opportunities for wage earning in the factories and in building, where with good wages and cheap and healthful living he can soon own a home for his family.

TO THE FARMER.—With his choice stock of goods there is nothing better for him than the large manufacturing concerns, with their busy work people, receiving good wages, which is turned over to him for his products.

TO THE FARMER.—It makes a market for his produce, a place for the investment of his earnings in real estate, which will bring him good returns, and a home where he can retire and enjoy the benefits of his investments. As the city increases the farmer has more customers, he has shorter hauls to a market which is near, and in turn can purchase his supplies at equally low rates.

TO THE INVESTOR.—It is the place to put his money. Where factories are located, the work people must have houses to live in; the builder must be there to build factories and houses and there must live; the merchant must have his store and residence to supply goods to the others; all these things give work to the builder, who in turn must secure work from the investor, who is assured of a good income for the use of his money.

To sum up the matter we must look at the city about one year ago when the Moundsville Mining & Manufacturing Company opened its plans of development and then at it now. Then it was a small place under 3,000 in population, no activity in trade, no buildings being erected, no property being sold, because there was no call for real estate, it did not pay. Now, we see paved streets, lighted by electricity, large factories working numbers of active work people, new buildings erected or in course of construction, giving work to the mechanic, real estate advancing and everything tending to the making of a brisk business city.

Now it has fully 50 per cent more of population. Active business men are seen on all sides. Buildings have been erected (over 150 in the year at a cost of \$350,000). Real estate has changed hands at a reasonable advance, yet not too large for present owner to sell out at a profit.

They have paved streets, lighted by electricity, large factories working numbers of active work people, and in everything a tendency is seen to renew and improve, making it a brisk business city.

The Moundsville Mining & Manufacturing Company, to whom the credit is justly due for this improvement, will have their Second Great Sale of Lots on Wednesday, October 5, by the great auctioneer, W. O. Beckenbaugh, of Baltimore City. Choice lots will be offered for sale on broad avenues. A lunch will be served on the grounds for visitors and friends. Tickets will be on sale at the various railroad stations at excursion rates.

Those desiring further information or wish to attend the sale can apply to J. Glenn Cook, General Manager of the Moundsville Mining & Manufacturing Company, or to Hugh Sterling, 1102 Main street, Wheeling.

In Holland, Mich., C. J. Doesbury publishes the News, and in its columns strongly recommends Dr. Thomas' Electric Oil for coughs, colds, sore throat, catarrh and asthma.
